3. Whois Verification and Domain Name Allocation Rules During General Availability

All Applications for domain names in the TLD are processed on a first come first serve basis without prior verification. This updated policy replaces the prior version of Section 3 in its entirety.

3.1. Post Registration Enhanced Whois Verification

3.1.1. In order to ensure compliance with the Registry policies, the Registry will use commercially reasonable efforts to verify the Whois information (Registrant's name, physical address, telephone, and email address, but not the Administrative, Technical or Billing Contacts) from time to time post registration. Where the Registry is unable to verify any part of the Whois information, it may contact the Registrar and/or the Registrant directly and ask that the inaccurate or incomplete Whois information be corrected or request that further documentary evidence be submitted. For the purposes of Post Registration Enhanced Whois Verification, the Registry may request documentary evidence (such as a valid passport, driving licence, certificate of incorporation, business licence).

3.1.2. Failure to provide accurate Whois Data and/or documentary evidence at the request of and within the time limit specified by the Registry, or as may be reasonably extended, may result in the lock, suspension or cancellation of a Registration.

3.2. Third Party Rights Checks Further to any complaints or of its own accord the Registry reserves the right to conduct checks on any registration for indications of the infringement of third party rights on the actual name or a confusingly similar name in the ticketing industry ("Third Party Rights Check"). These checks are for the protection of consumer rights and the Registry may take such action in accordance with its anti-abuse policy.

3.3. Publication of Registrant The Registry shall publish all Registered Names and Registrants on its website to serve as notice to third parties of potential infringing names for a period of time as determined by the Registry. The purpose of publication is to help ensure that all registered names adhere to all terms of the Registry policy. Should a rights holder wish to report abuse, cybersquatting or unlawful activity or breach of consumer protection laws, complaints should be sent by email to: tickets.abuse@centralnic.com. Any infringement of trademarks may result in other proceedings such as URS or UDRP. The Registrant and its Registrar will be notified in the event of such proceedings.

3.4. No Liability The Registry will in no way be held liable for implications arising from its checks and decisions from the Post Registration Enhanced Whois Verification and Third Party Rights Checks, including lost application fees or any other loss whether or not such a loss was foreseeable and the Registrant agrees and accepts the risks and terms herein.

3.5. Registry decisions are binding. The Registry's checks, assessments and decisions on the Post Registration Enhanced Whois Verification, Third Party Rights Protection, Publication, are final and binding on the applicants, competing applicants and registrants.

3.6. Representations and Warranties by Applicants. By submitting an Application, the Applicant represents and warrants that all information supplied to its Registrar, the Registry or any appointed services provider to the Registry is true and accurate. The Registry reserves the right to deny, suspend, transfer and/or cancel a .tickets domain name registration at any time that it finds that any registrant information or any other information supplied in connection with a Registration is incomplete or fraudulent, or if the domain name is being used in contravention of its Acceptable Use Policies. If any person or organisation has found any abusive or illegal practices under a .tickets domain name please contact tickets.abuse@centralnic.com or submit a complaint via the Registry Website.
